

Pollinator Observations at Home

Flower
Color

Red	Yellow	Purple	White
Pink	Orange	Blue	Pale Pink

**Bee &
Bumblebee**

Butterfly

Hummingbird

**Beetle,
Wasp, Fly,
Others**

Carefully observe the pollinators in your home garden or neighborhood as they feed off nectar from different flowers. Use tally marks to keep track of how many of each pollinator you see on the different flower colors.

Which flower color do bees and bumblebees like best?

Do butterflies prefer a certain flower color?

Do hummingbirds have a favorite flower color?

Did you notice if any of the pollinators liked a flower of a certain shape?
